

Free Electronics Software I have found useful

Electronics schematics, pcb etc.

TinyCAD	tinycad.net
Fritzing	fritzing.org
KiCad	kicad-pcb.org
Yenka	yenka.com

Simulation etc.

Simetrix Elements	simetrix.co.uk (Demo is fully working package)
Micro-Cap12	spectrum-soft.com/download/download.shtm
LTSpice	analog.com/en/design-center/design-tools-and-calculators/ltspice-simulator.html
Solve Elec	physicsbox.com/indexsolveelec2en.html
Soundcard Scope	zeitnitz.eu/scope_en

Try the site <https://alternativeto.net/> type in the name of a package and it will give a list of possible alternatives which may include free ones.
