

CHESTER & DISTRICT AMATEUR RADIO SOCIETY.

No. 3.

NEWSLETTER.

1954.

The Editor regrets that there has been rather a long period between this newsletter and the previous one; an edition was prepared but circumstances prevented its publication.

Members may wonder why there has been no organised or advertised meetings during the summer months. The Committee decided, as an experiment, to discontinue organised meetings during the summer in view of the difficulty of finding suitable lecturers for the 48 meetings held in a year. Members will appreciate that this is a most difficult task and the Committee are pleased that so many Members have attended during the summer and appear to have enjoyed the informal gatherings and outings.

The Winter 'Session' commences next Tuesday and the first few Meetings are detailed below.

N. F. D. Results are now to hand and we have maintained our position in the list at 33rd. (The same as last year).

PROGRAMME.

September 28th.	We entertain the Members of A.E.R. Blacon Camp. (Those who can bring some 'grub' please do so).
October 5th.	Auction.
" 12th.	Film Strips.
" 19th.	Radio Mechanics by D. Rickers. GW3.HEJ.
