

# ***Portable Operating***

## **the SOTAbeams way**

**Richard Newstead G3CWI** of SOTAbeams, will be visiting us to give a talk on portable radio operating. The talk will cover many different aspects of operating outside the shack, from holiday DXpeditions to SOTA.

Richard will discuss the techniques and equipment that make portable operating successful and enjoyable. He will be more than happy to answer questions, drawing on over 30 years of experience in this specialist subject.

Richard will also be bringing along a small selection of SOTAbeams products that will be for sale at **special prices** on the night. He asks that if there is anything specific that you want to look at or buy, please tell him beforehand so that he brings it along. SOTAbeams' extensive online store is at [www.sotabeams.co.uk](http://www.sotabeams.co.uk) and Richard can be contacted by email to: [Richard@sotabeams.co.uk](mailto:Richard@sotabeams.co.uk)

### *About Richard*

Richard is professional Radio Systems Engineer. He has operated both portable and fixed stations in his professional capacity and as a radio amateur throughout the World. He was co-founder of the popular Summits on the Air award scheme. These days he juggles managing his company, SOTAbeams, with working part-time as an Engineering Liaison Teacher in a High School and working with “excluded” children.
